

# TRANS BLACK HISTORY

*coloring pages*

*Jassie*

I am 36 year old trans woman of color and I am so glad that I made it this far.

Statistics say I should be dead but I am here alive and making change in my community.

I want to ensure that all of my trans people gain access to healthcare and have the most accurate and updated information surrounding their medical needs.

I am a proud trans woman with lots of black girl magic and I rock!
