

HONORING OUR TRANS COMMUNITY

ASIAN & PACIFIC ISLANDER ★ HERITAGE MONTH

Ryan is a first-generation Southeast Asian born in Sài Gòn. At age 5, they immigrated to California as a result of displacement by US imperialism, war, and colonialism. They graduated with their Bachelor's degree from UC Davis in 2017 and their Master's degree in Social Work from UC Berkeley in 2019. Ryan's lends a critical perspective to their work and interests including: overseeing GHC's mental health program, research, narrative therapy, decolonizing mental health care, and depathologizing trans care. In their free time, Ryan can be found surrounded by houseplants or facilitating the indubitable friendship between their dogs, cats, and fish.
